OBJECTIVES

While pursuing my studies at the Polytechnic University of the Philippines, I continuously seek opportunities to strengthen and demonstrate my skills by engaging in various learning experiences. I am highly motivated to take on challenging roles where I can fully apply my abilities, contribute meaningfully, and further develop my potential. With a strong commitment to hard work, preserverance, and determination, I strive to grow and excel in the field of Information Technology, make a positive impact, and become a valuable contributor to future technological advancements.

I believe that learning goes beyond the classroom, and real growth happens when we step outside of our comfort zones. By collaborating with others, embracing new tools and technologies, and staying open to feedback, I continue to sharpen both my technical abilities and soft skills. I am confident that with the right environment and opportunities, I can grow into a competent, reliable, and forward-thinking IT professional.

WORK EXPERIENCE

Torres Tech Inc.

2023

10-Days Immersion | 5 Days On-site, 5 Days Online

I engaged in a 10-days work immersion focused on skill development and professionalism, allowing me to apply technical knowledge and gain insight into workplace operations.
